

I am a resident who is greatly concerned about the new broadcast service LPFM possibly taking priority over current FM programming. I listen to K-Love programming and find it to be very uplifting. It is one of a very few radio stations that I can listen to with my children and not worry about something offensive being said, either in the songs or by the announcers. Much of the music played on other radio stations is full of sexual content. K-Love provides an alternative to families who enjoy the radio, but know that children are very impressionable and soak-up what they hear. I believe it would be a shame and a great loss for our community if we no longer had the option of listening to K-Love programming.
